classic Cold War deterrence theory these strategists have expanded the field of battle in order to disrupt jihadist networks in ever more creative ways Schmitt and Shanker take readers deep into this theater of war as ground troops intelligence operatives and top executive branch officials have worked together to redefine and restrict the geography available for Al Qaeda to operate in They also show how these new counterterrorism strategies adopted under George W Bush and expanded under Barack Obama were successfully employed in planning and carrying out the dramatic May 2011 raid in which Osama bin Laden was killed Filled with startling revelations about how our national security is being managed Counterstrike will change the way Americans think about the ongoing struggle with violent radical extremism [Great Books of the Western World: The great ideas](#) Robert Maynard Hutchins,1952 For contents see Title Catalog
