Focus How To Focus:

Focus Arthur Davis,2013-11 Take a snapshot of your life Does it look and feel out of focus and blurry Think about your life like you would a photograph When it is out of focus what you see is blurry or fuzzy The last time you took a picture and the camera focus was off or not working were you disappointed with the result Could be that the people or the scenery were so blurred that it made everything in the picture unrecognizable What did you do with it Did you delete it or toss it out if it was a print Someone who is constantly distracted with trivial tweets computer games a constant flow of junk email and Smartphone apps will not be nearly as successful as someone who can and does focus his or her mind and behavior Learning to do this is truly like learning how to unleash the power of your mind You have a potent tool available when your mind is focused and you make a purposeful decision to concentrate Let me ask you how many times do you check your email Facebook page and Twitter account per hour If you are the average heavy multitasker your answer will be 37 times plus Now ask yourself this question What is this doing for you Are you smarter Are you wealthier How about happier Maybe it is high time you seriously looked into this whole idea of focused attention

100% Focused John Morgan,2014-02-14 How To Improve Your Focus And Concentration The minds of successful people are well organized and have the ability to focus If you want to make the most out of your life developing this kind of mind is essential The big challenge in achieving this goal is being in a culture that glorifies amount of work done rather than high quality work Most low level jobs where young adults are hired require very little creativity and critical thinking This creates a culture of taking shortcuts to achieve objectives that we are not really passionate about Because of the advancement of consumer electronic technology we are surrounded by distractions that are constantly craving engagement The engagement we give these distractions is taking away our ability to focus on the things that really matter If we could just spend less time tapping our smart phones we could do a whole lot more with our waking hours Indulging in these distractions also promotes the practice of constantly switching attentions This habit kills our ability to focus People who have this kind of habit often become uncomfortable when doing one thing for a long period of time They lack the ability to continue working especially if the task is very boring Luckily there are ways to rehabilitate our ability to focus We can enhance our minds and condition them to be ready for tasks that require prolonged attention However we need to develop habits and practice some exercises

to be able to accomplish this This book provides you with these habits and the exercises They will help you develop a mind capable to concentrating for longer periods of time There is no ultimate technique that will work for everyone That is why we provide you with 25 techniques If the first tip will not work for you you still have 24 chances to improve your focus
