writing lessons across the middle years of school It addresses writing from a multimodal perspective while also highlighting the importance of teaching linguistic aspects of text design such as sentence structure vocabulary and spelling as foundations for meaning making Contributors argue that students need to continue to develop their skills in both handwriting and keyboarding Examples of the teaching of writing across disciplines are presented through a range of vignettes Strategies for assessing student writing and for supporting students with diverse needs are also explored With contributions from leading literacy educators Teaching Writing is an invaluable resource for primary secondary and pre service teachers
