Fabric Mice Patterns:

Martha Stewart's Encyclopedia of Sewing and Fabric Crafts Martha Stewart Living Magazine, 2012-01-24 Whether you just bought your first sewing machine or have been sewing for years Martha Stewart's Encyclopedia of Sewing and Fabric Crafts will open your eyes to an irresistible range of ideas. A comprehensive visual reference, the book covers everything a home sewer craves: the basics of sewing by hand or machine, along with five other time-honored crafts techniques and step-by-step instructions for more than 150 projects that reflect not only Martha Stewart's depth of experience and crafting expertise but also her singular sense of style. Encyclopedic in scope, the book features two main parts to help you brush up on the basics and take your skills to a new level. First, the Techniques section guides readers through Sewing, Appliqué, Embroidery, Quilting, Dyeing, and Printing. Following that, the Projects A to Z section features more than 150 clever ideas, including many no-sew projects, all illustrated and explained with the clear, detailed instructions that have become a signature of Martha Stewart's magazines, books, and television shows. An enclosed CD includes full-size clothing patterns as well as templates that can be easily produced on a home printer. Fabric, thread, and tool glossaries identify the properties, workability, and best uses of common sewing materials. And perhaps best of all, when you need it most, Martha and her talented team of crafts editors offer you the reassurance that you really can make it yourself. The projects are as delightful as they are imaginative and include classic Roman shades, hand-drawn stuffed animals, an easy upholstered blanket chest, a quilted crib bumper, French knot embellished pillowcases and sheets, and Japanese embroidered table linens among many others. With gorgeous color photographs as well as expert instruction, this handy guide will surely encourage beginners and keep sewers and crafters of all experience levels wonderfully busy for many years to come.

The Maker Cookbook Cindy Wall, Lynn Pawloski, 2014-08-28 The Maker Movement is hot, and librarians are eager to participate. Even if you feel restricted by budget, staff, or space, this step-by-step guide will help you turn your library into a creativity center. The Maker Movement is sweeping the nation because it is creative, educational, and a lot of fun. Nonetheless, some librarians have hesitated to incorporate the movement into their programming because their libraries do not have dedicated makerspaces. If that describes you, then take heart. Written by librarians for librarians, this cookbook proves that every library is already a MakerPlace and provides you with recipes to make your library come alive with creativity. Easy-to-use, step-by-step guidance helps you create engaging K-8 programs in science and technology, arts and crafts, and home skills that are perfect for the library setting. The menu of ideas is broken into four types of programming: Appetizers add a taste of the Maker Movement to existing library programs; Entrees present full programs for a lengthy one-day event or a short series; Side Dishes are programs you can use if you have limited staff, budget, space, or any combination of those; Desserts are low-tech programs suitable for young children. Each recipe includes extensions, variations, and curriculum tie-ins that give you even more ways to present the program ideas, whether to a different audience or as part of other related activities. Programs that involve

creating a Balloon Zip Line a Zen Garden or a Maker Marketplace will delight library users and generate activity and excitement in your library
