**Journal of Economic Literature** ,2014 **Key Indicators of the Labour Market (KILM)** International Labor Office,2016-04-14 Harvesting information from international data repositories as well as regional and national statistical sources the KILM offers data for over 200 countries The 17 chapters provide detailed information related to 36 data tables including indicators on employment occupation status sector hours etc labour underutilization and the characteristics of job seekers education wages labour productivity and working poverty Taken together these indicators provide a strong foundation from which to address key questions related to productive employment and decent work **Parliamentary Papers** Great Britain. Parliament. House of Commons,1905 **Arab Middle Class** ,2014 The present report studies the Arab middle class an important social group that is relatively little understood despite the fundamental role it has played in shaping the economic and social development outcomes in the Arab region This report contributes to the ongoing debate about factors that led to the Arab uprisings and the difficult transitions to democracy that followed the departure of long standing dictators by marking elements influencing middle class allegiances specifically those that weakened their well established alliances with ruling regimes The report is motivated by the conviction on the basis of past development experiences that a new Arab development model can only succeed if the middle class plays a lead role in designing and implementing processes of economic transformation and political transition Studying the middle class is therefore crucial to interpreting the past understanding the present and reading the potential future development prospects of the Arab region This report introduces three novel approaches aimed at charting a path for sustaining empowering and enlarging the middle class The first is related to the measurement of the middle class based on a definition that takes into account both the

quantity and quality of their consumption expenditure The second relates to the profiling of the Arab middle class using variables such as education employment and mobility in addition to multidimensional poverty The third novel approach lies in using these results to provide a narrative of the socioeconomic context of the decade leading up to the uprisings from a middle class perspective The report concludes that the empowerment of the Arab middle class could pave a way out of the current development and governance debacle towards an Arab developmental State Publisher s description [Subject Catalog of the World War I Collection](#) New York Public Library.
