Relanguaging Language from a South African Township School Lara-Stephanie Krause-Alzaidi,2021-12-20 Using data from a long term ethnographic study of English language classrooms in a South African township this book highlights linguistic expertise in a setting where it is not usually expected or sought Rather than being peripheral and unskilled South African township teachers and learners emerge as skilled re languagers central to the workings of South African education and to our understanding of how language classrooms work This book foregrounds the heterogeneity flexibility and creativity of day to day language practices that African urban spaces are known for and conceptualises language teaching not as a progression from one fixed language to another but as a circular sorting process between linguistic heterogeneity languaging and homogeneity a standard language Decolonisation, Globalisation Angel Lin,Peter Martin,2005-07-04 This volume brings together scholars from around the world to juxtapose the voices of classroom participants alongside the voices of ruling elites with the aim of critically linking language policy issues with classroom practice in a range of contexts The volume is suitable for postgraduate students researchers and educators in a range of areas African Books in Print ,1993
The Education Gazette of the Province of the Cape of Good Hope ,1982 *Changing Teaching, Changing Times* Jonathan Clark,Cedric J. Linder,2006 This is the story of a science teacher and her work in an over crowded and under resourced township secondary school in contemporary South Africa While set firmly in the present it is also a journey into the past shedding fresh light on how the legacy of apartheid education continues to have a major influence on teaching and learning in South Africa The book has a compelling story line with extensively referenced notes at the end of each chapter It is intended for a wide audience which includes general readers policy makers teacher educators researchers and most importantly practitioners in the field For while it reminds us of the powerful constraining role that both context and students play in mediating a teacher s practice it also attests to the power of individual agency As such it is a celebration of the actions of an ordinary teacher whose willingness to leave the well worn paths of familiar practice stands as a beacon of possibility for contexts which seem so often to be devoid of hope *Whitaker's Cumulative Book List* ,1941 **Government Gazette** South Africa,1957 Papers Presented at the Symposium on Ethnomusicology ,1995 South African national bibliography ,1999 Classified list with author and title index *Linguistics and Language Behavior Abstracts* ,2007-10
